

Anne Kendall's Story

To me, Light up a Life means remembering a Mom and Dad and all those who looked after them with such dedication, care, kindness and support given not only to them but also to us as a family. It also means me giving something back to St Mary's but no where near enough.

I know Mom and Dad would have wholeheartedly approved of being a small part of your Tree twinkling away every year. Although I now live in Wales and can not always get to the ceremony my thoughts are always there with you on that special night. The cards you so kindly send me in memory of them are put in a prominent place so I feel that I am there with you.

I would like to say a word of thanks to Ed Doolan who every year makes the lighting of the Tree that little bit more special. Many Many thanks to you all.
