

Pat's Story

I support the Hospice because of all the good things you do.

My Mom was helped very much by your home team. It made her much happier and her life was easier with your help. She always said she would not go into a Hospice but after meeting your team she would have gone in, but she died that night. Your kindness really helped her and all our family. That was 22 years ago, and now you are even bigger and better.

My friend Debbie was in there too, and all her family and friends were made so welcome. Debbie was only in her forties. The Day Room was decorated for Christmas and we found that many of the decorations had been made by the day patients. It was a joy to see everybody so content and happy together.

You put everybody at ease, there is always somebody to talk to and help you through hard times.
